

# Manned drone

Project under development.

## Project Description

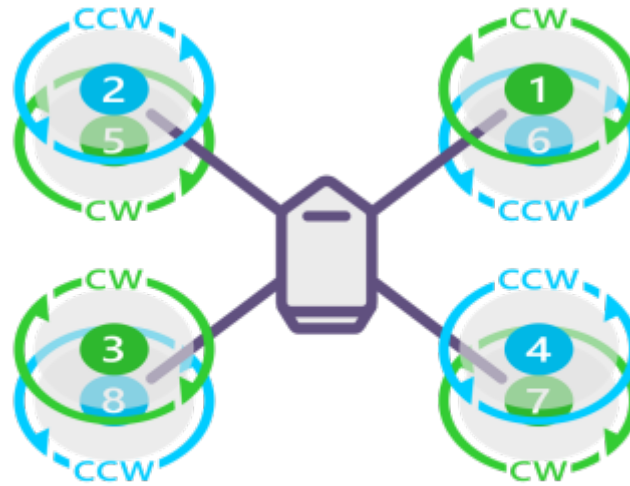

To be added

## Frame

## Design

The diagram below shows the motor order for a frame type Octo Quad H:

### OCTO QUAD H

Source: <https://ardupilot.org/copter/docs/connect-escs-and-motors.html#motor-order-diagrams>

The image below shows the Cargo drone model with the motor order and labels:

- The first three digits in the labels indicate the position of the motor:  
F / R - Front / Rear  
R / L - Right / Left  
T / B - Top / Bottom
- The number indicates which output pin from the flight controller should be connected to each motor ESC.

Image: Pixhawk output pins.

- The last digits indicate the direction of rotation of the motor:  
CW - ClockWise  
CCW - CounterClockWise

## Propellers

Helix H25F 1.80m  
[H25F 1.80m R-LES-04-2](#)  
[H25F 1.80m L-LES-04-2](#)

## Motors

[RET 30](#)

The motors were properly labeled.

## Electronic Speed Controller (ESC)

[HBC 18063-3](#)

Labeled with the numbers for the flight controller pin connections.

## Flight controller

# Battery, Electronics, and Power Distribution Cables

## Tests

### Test 1

Date: 09.sept.2021

Place: FabLab HSRW Kamp-Lintfort, Germany

Carried out by: Jefferson Sandoval and Harley Lara

[CargoDrone-Test1](#)

Video: *Testing ESC + motors reaction and direction of rotation*

## The Team

From left to right: Rolf Becker, Harley Lara, Henrik Schoofs, Stefan Schmitz, Jefferson Sandoval, Winfried Rijssenbeek
